

# Crew Manager

## Skippers Manual

Version 2.4  
30 June 2019

<http://crew-mgr.com>

Version	Date	Comment
2.4	6/19/2019	Added Availability & Position selection for entire column, added short Sizes, added User last logged in display, added Notify Maybe to Update Availability, added custom field display in Crew shortcode, Added automatic email reminder 5 days in advance for Skipper to pay Regatta registration fees
2.3	5/5/2019	Added Smart Copy Events, updated various pictures, fixed typos
2.2	3/22/2019	Added Regatta Registration Status Report & augmented descriptions
2.1	2/23/2019	Added Participant Report & SMS Text Messaging
2.0	12/31/2018	Updated for WordPress Multisite with many new features
1.2	5/10/2018	Added Crew Email turn On/Off in Setup
1.1	4/21/2018	Corrected typos
1.0	4/20/2018	Originally published

# Skipper Directions for Crew Manager

## Summary

The Skipper controls the boat website *Crew Manager* setup, the people listed on the site, scheduling the events, the content & details behind the schedule, and assigning crew to the events. In summary, *Crew Manager* works as follows

- Skipper orders [Boat Website subscription online](#) with annual or monthly term options
- Skipper loads Crew Members (via [spreadsheet CSV file upload](#) or individually typed in Crew Manager admin panel)
- Skipper setup - designate who has Skipper Rights & setup options
- Load the Season Schedule - All In One Calendar Events (with extra fields for uniform)
- Crew (or Skipper) sets "Availability" for each event - via Crew Manager menu items
- Skipper assigns each available Crew to a position - via Crew Manager menu items
- Skipper designates what to wear and who brings the beer for an event - via Crew Manager menu items
- Automatic Email reminders sent to Crew 36 hours (or as set by Skipper) in advance
- Go Sailing and win races!
- Skipper records race results and posts commentary about the race
- If an Event must be cancelled (e.g. bad weather) the Skipper clicks a *Cancel Event Immediately* button. Crew scheduled for the event are immediately notified via email.

## Additional Skipper Features

Fields are included in each Crew member's profile to record mobile phone number, weight, World Sailing (ISAF) Sailor ID, World Sailing Sailor Classification, US Sailing Membership number, shirt size, jacket size and short size. The Skipper may also assign Crew to groups including *Core Crew*, *All Posts* and *Retired*. Settings are available for the Skipper to enter One Design weight limits, and if the Helm weight is included in the limit. These settings allow Skipper menu items to be used when the Skipper is logged in.

- **Regatta Weight Report** - Allows Skipper to view & sum weights for crew assigned to an event. If One Design limits are entered, the amount under/over the limit is shown. Standby crew are shown in a separate list on the same page. It also displays the World Sailing Category declared by each crew member. A button is available to automatically validate the World Sailing Classification for each Crew member using the World Sailing database. Links are provided to the US Sailing and World Sailing profiles for each crew member.
- **Crew Shirt Size Report** - When the Skipper needs to buy swag for the Crew, this report includes a matrix of shirt, jacket and short sizes for each crew member. The report may be run for the *Core Crew*, *All Posts*, *Active* and *Inactive* (Retired) groups.
- **Crew Position Assignment Report** - A consolidated summary of Crew Position Assignments for a calendar year is available as a one page, printable report. This report counts people against positions for a season and displays a color coded matrix. It is helpful for Skippers who try to balance crew position assignments over a season.

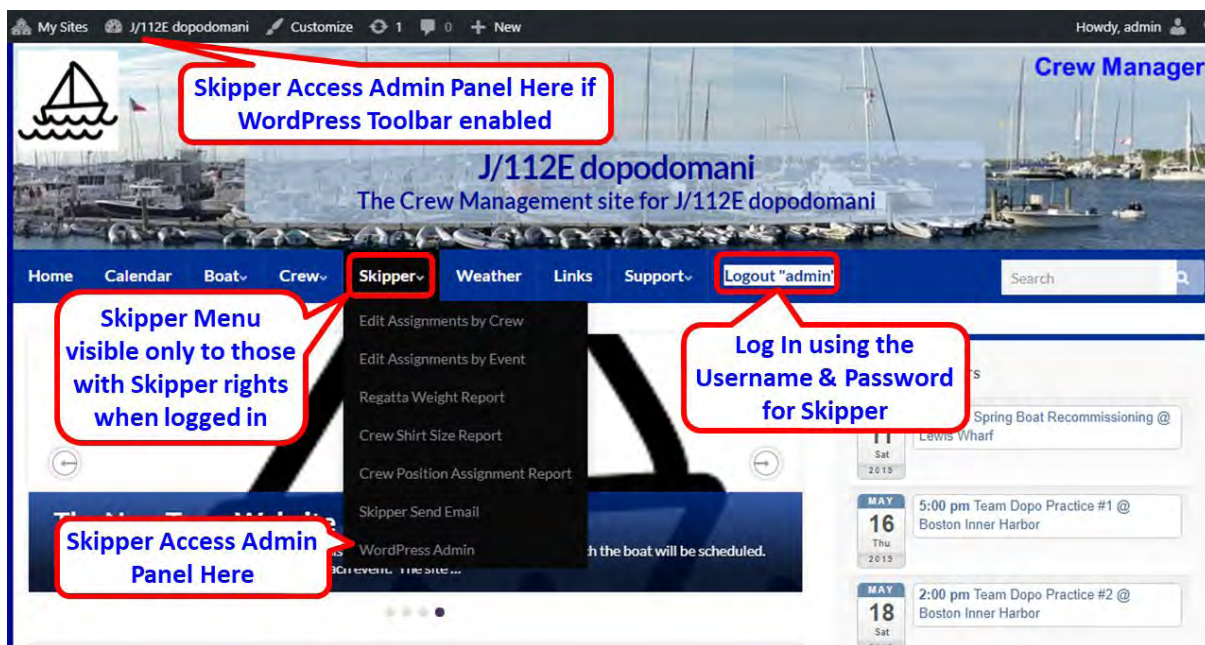

# Skipper Directions for Crew Manager

- **Skipper Send Email** - Provides full featured email capability so the Skipper may compose and send messages to Crew associated with any event or the pre-defined groups selected from a drop down menu. No need to look up crew email addresses for entry in your email program, or who is scheduled for a particular event.
- **Regatta Registration Status** - This report is available from the Crew menu to help the Skipper keep track of those events registered and associated fee payments. Automated reminders are sent 5 days in advance to the Skipper if a due date is entered for the fee\_paid field.
- **Annual Smart Copy** - Smart Copy Events is accessible by the Skipper via the admin screen to allow copying selected events for the next season. Events are advanced a selectable number of days to create a new identical event that may be edited for the next season. This significantly reduces data entry to setup subsequent seasons.

## Skipper Log In to WordPress Admin Panel

The Skipper and designated Administrators have access to the WordPress Admin panel. Many of the settings are accessed in this area. Accessing the WordPress Admin Panel is as follows.

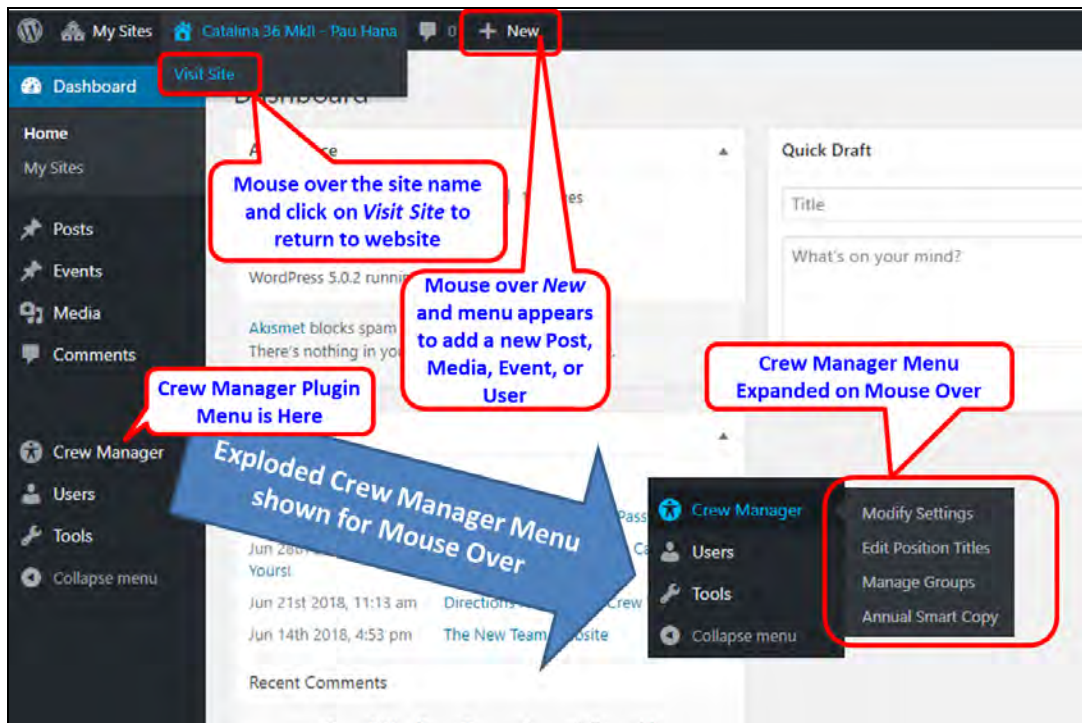

1. Log in to your *Crew Manager* site as the Skipper or Administrator if you have multiple logins. The *Skipper* menu will appear in the menu bar. The *Skipper* menu is not visible to Crew or to people who are not logged in. **Note:** The Skipper may also set the WordPress toolbar to display at the top of the screen. This option is set under the Skipper's profile by checking the box *Show Toolbar when viewing site*.
2. Option 1: Mouse over *Skipper* on the menu and click on *WordPress Admin*  
Option 2: If the WordPress toolbar is enabled, click on the dashboard icon  at the top left of the screen

# Skipper Directions for Crew Manager

3. The WordPress Admin screen will load. On the left side there is a WordPress menu. This is where many of the settings described throughout this manual are accessed.

## Load Crew Members

Crew Manager is intended to be a “closed” enrollment system - meaning that new users must be entered by the Skipper. This is done to prevent spammers and unauthorized users gaining access to the system using “open” enrollment where anyone may subscribe via the front end. This trade-off requires a little more work for the Skipper to set up, but based on the limited size of typical boat crews, should be easy to manage. Additional crew members may easily be added at a later date. Crew members are regular WordPress users that are automatically assigned the role as a WordPress *Subscriber*. Should the Skipper desire a user to help and have upgraded privileges (e.g. to help publish and edit posts, to add and edit users, etc.) a user may be assigned the role as *Crew Administrator* by the Skipper in the user’s profile.

Crew members may be uploaded from a spreadsheet saved as a formatted CSV file, or typed individually. The Skipper has WordPress privileges to enter Crew using either method. Crew Manager utilizes a limited set of the WordPress user fields (Username, first & last names, nick name, display name & email address) that have been supplemented with fields including mobile phone number, mobile phone carrier, check box to receive SMS text messages in addition to email, shirt size, jacket size, short size, weight, World Sailing Sailor ID, World Sailing Classification, US Sailing Membership number and a check box where the Crew member may opt out of *All Posts* group emails.

The only information shown to the public (e.g. people who visit the site but are not logged in) is the short display name. The Username and display name fields are usually populated with the

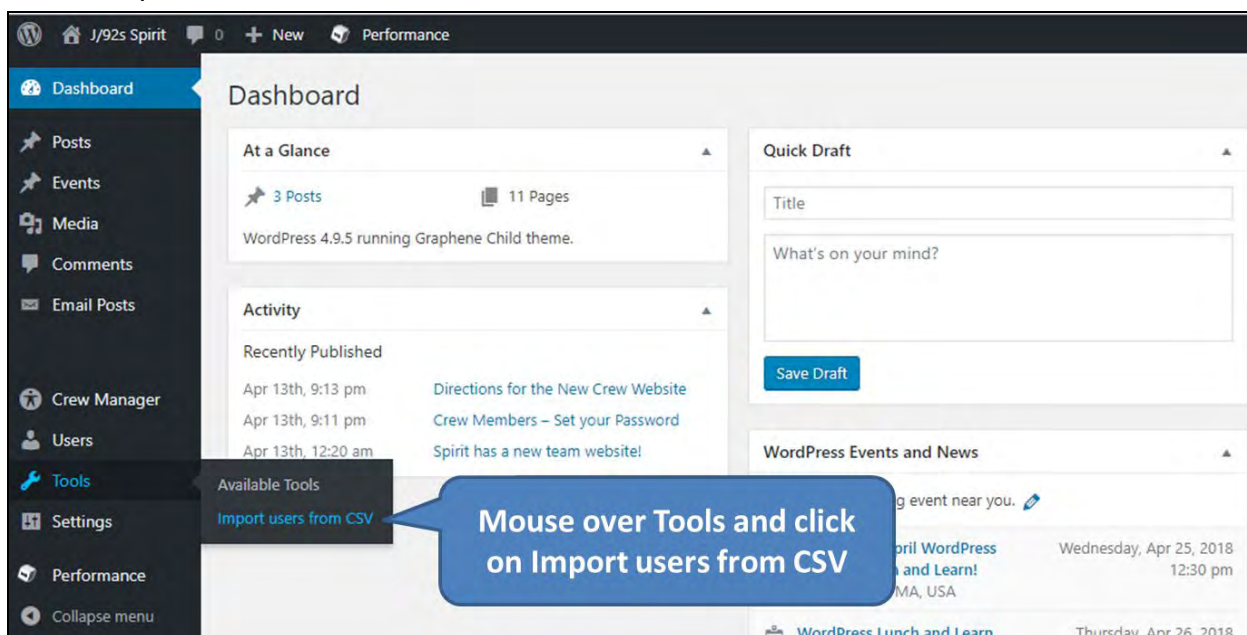

# Skipper Directions for Crew Manager

same information for an individual user but are not required to be the same. Typically the display name is a nick name such as Bob, Sally, Joe. etc. If you have Crew with the same first name, consider BobR and BobS (first name and first letter with last name). These must be all letters and numbers (e.g. no special characters, spaces are permitted). The Username must be lowercase and is what a Crew member will use as their log in, with their own password. A user may also use their email address as a substitute for their Username. The first and last names, email address and mobile number are only visible to Crew who are logged in. All information that is entered in WordPress may be changed, except for the Username. Once entered, it may not be changed, except by deleting the user and creating a new user.

## Uploading Users via Spreadsheet File

The WordPress Plugin “Import users from CSV with meta” is installed allowing a convenient method to import a list of users all at once. This is typically done when Crew Manager is initially setup for a boat. An Excel spreadsheet template is [available at this link](#) to download and populate with Crew information.

1. Populate each row in the spreadsheet with Crew information under the column names. The only mandatory fields are Username and email. Other fields are optional and may be edited later in the WordPress user’s profile by either the Skipper or the Crew member.
2. Save the spreadsheet, first in native Excel format (allows easier updates in the future), then using the Save As menu option in Excel as a CSV (Comma delimited) (\*.csv) text file. Note: Do not include a record with the Skipper username and email that the website was set up with or you may end up being locked out and require the Crew Manager Administrator to set a password for you to log in again..
3. Log in to your *Crew Manager* site as the Skipper if you have multiple logins.
4. Once logged in mouse over *Skipper* on the menu and click on *WordPress Admin*.
5. The WordPress Admin screen will load. On the left side menu, mouse over *Tools* and click on *Import users from CSV*.

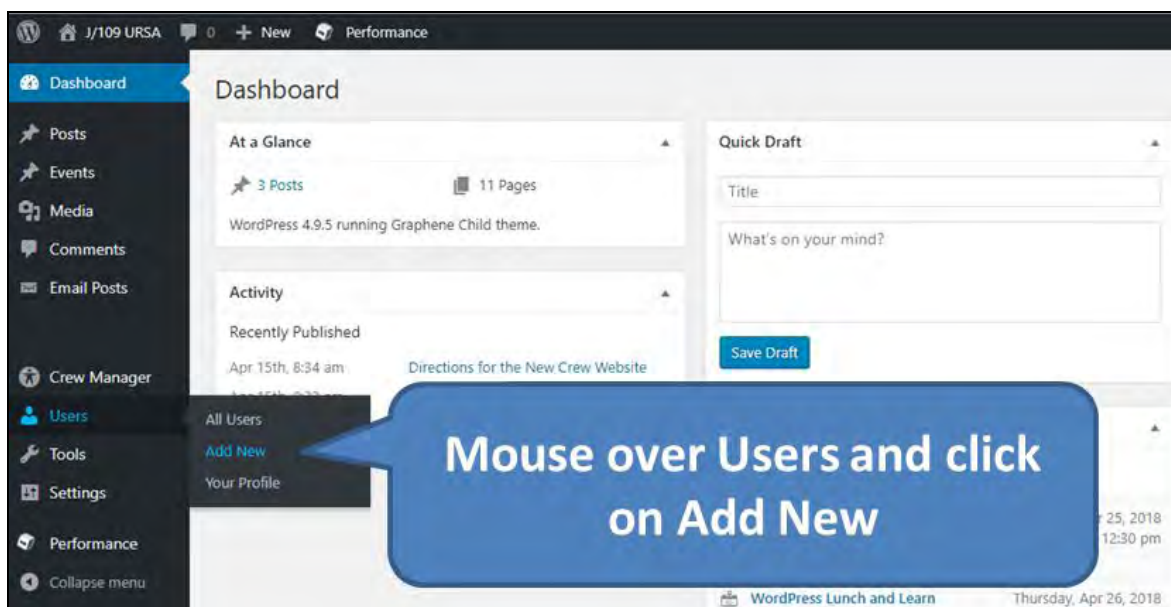

# Skipper Directions for Crew Manager

6. The plugin will load and provide a plethora of options. If this is a one time upload, use the default settings. Click on the *Choose File* button located to the right of the *CSV file (required)* label. When the dialog box opens, navigate to the directory where the CSV file containing the Crew was saved and select the file. Click on the blue button at the bottom of the plugin Admin screen labeled *Start Importing*.
7. When the upload is complete, the screen will display the list of Crew that were imported. You may now review and edit any user information by mousing over *Users* and clicking on *All Users*.

## Creating Users Individually

1. Log in to your *Crew Manager* site as the Skipper if you have multiple logins.
2. Once logged in mouse over *Skipper* on the menu and click on *WordPress Admin*.
3. The WordPress Admin screen will load. On the left side menu, mouse over *Users* and click on *Add New*

4. Scroll down past the section labeled *Add Existing User* until you reach the section labeled *Add New User*. Enter information in the following fields (\* indicates required field):
  - a. \*Username (must be lowercase, no spaces, numbers or special characters)
  - b. \*Email
  - c. Role (leave as *Subscriber*)
  - d. *Skip Confirmation Email* box - leave unchecked if you want the Crew member to receive an immediate email when the account is created. If checked, the user will not be added until the person clicks on the link in the email.
  - e. Mobile Phone Number (use format 401-555-1212)
  - f. Mobile Phone Carrier (dropdown selection)
  - g. *Receive SMS Text Messages in Addition to Email* checkbox
  - h. Shirt Size (dropdown selection)
  - i. Jacket Size (dropdown selection)

# Skipper Directions for Crew Manager

- j. Short Size (dropdown selection)
  - k. Weight in lbs.
  - l. World Sailing Sailor ID
  - m. World Sailing Sailor Classification (dropdown selection)
  - n. US Sailing Membership Number
  - o. *Include on Core Crew Email List* checkbox - Check if you want this crew to receive email messages for the Core Crew group
  - p. *Include on All Posts Email List* checkbox - Check if you want this crew to receive email messages for the All Posts group (this also has new posts emailed to that Crew member)
5. Click the blue button labeled *Add New User*.
  6. Repeat these steps as necessary to add additional users

## View & Edit All Users - Display Last Logged In Time for Each User

1. Log in to your *Crew Manager* site as the Skipper if you have multiple logins.
2. Once logged in mouse over *Skipper* on the menu and click on *WordPress Admin*.
3. The WordPress Admin screen will load. On the left side menu, mouse over *Users* and click on *All Users*
4. The WordPress Users screen will load with all users loaded in a table. The right column displays *Last Logged In* for each user.
5. Mousing over each user row displays a link to permit *Edit*, *Remove* or *View* a selected user

The screenshot shows the WordPress 'Users' screen. At the top right, a red box highlights the 'Last Logged In' column header. Below the table, a red box highlights a row for user 'dave', with a callout pointing to the 'Edit', 'Remove', and 'View' links below the username.

## Skipper Setup - A Summary of Crew Manager Options

Crew Manager has a number of one-time setup options with default settings that may be modified by the Skipper. It also includes utilities to help manage email lists used to notify Crew. The setup options require saving on initial setup. Some may decide to change options later to

# Skipper Directions for Crew Manager

better meet the needs of the Crew. Examples of changes the Skipper might make in the future include:

- Notification emails sent to Crew are scheduled for an event 36 hours in advance. The Skipper may decide that time is too far in advance, or not soon enough. The setting can be set to another value (e.g. 24 or 48 hours - use a whole number only).
- The Skipper receives email notifications every time messages are automatically sent showing the number of emails sent for a particular event or post. This might be useful in the beginning or when trying to localize a mail problem, but may not be desired after using Crew Manager a while. This notification may be disabled or enabled at any time.
- The Skipper moves to another location with the boat in a different time zone. Not very common, but the plugin was designed so Skippers no matter where they are located may set their default time zone. If this is changed, the default time zone setting for the AI1EC plugin must also be changed via the WordPress admin menu under *Event, Settings*.
- The Skipper decides Crew position titles need to change, or needs to add another position that isn't on the list. The Skipper may update, add or delete the titles used for Crew position assignments.
- The Skipper decides that Crew not available or not assigned a position should be displayed on the event calendar in addition to Crew available and assigned a position.
- The Skipper has a Webmaster who is part of the crew and wants to include that person on the Crew roster. Alternately, the Skipper might have a Webmaster who is not part of the Crew and does not want that person's information displayed on the Crew roster. There is a check box that allows hiding the WordPress administrator from the Crew roster and all lists.

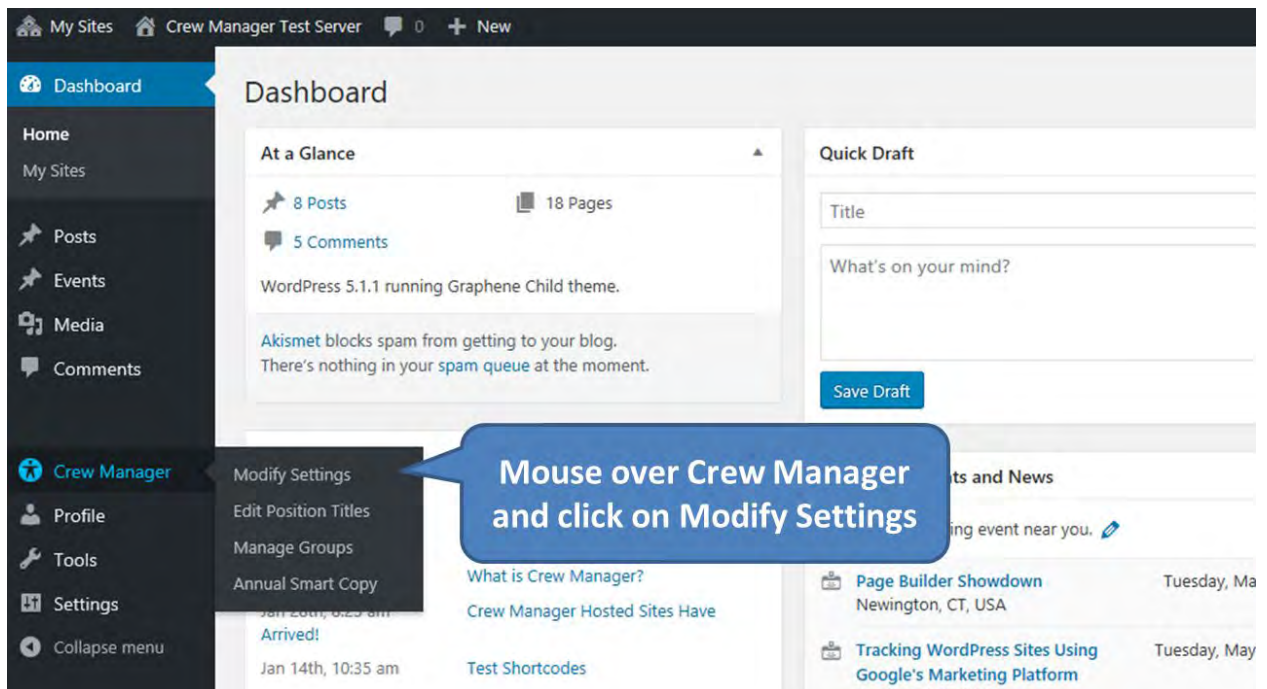

## Crew Manager Admin Setup - Modify Settings

The default settings for Crew Manager are set and saved from this menu. The first time the Skipper logs in to Crew Manager, this screen should be accessed and reviewed, any changes desired entered, and the settings saved. It is a one time action that is only needed again should any of the setting options need to be changed.

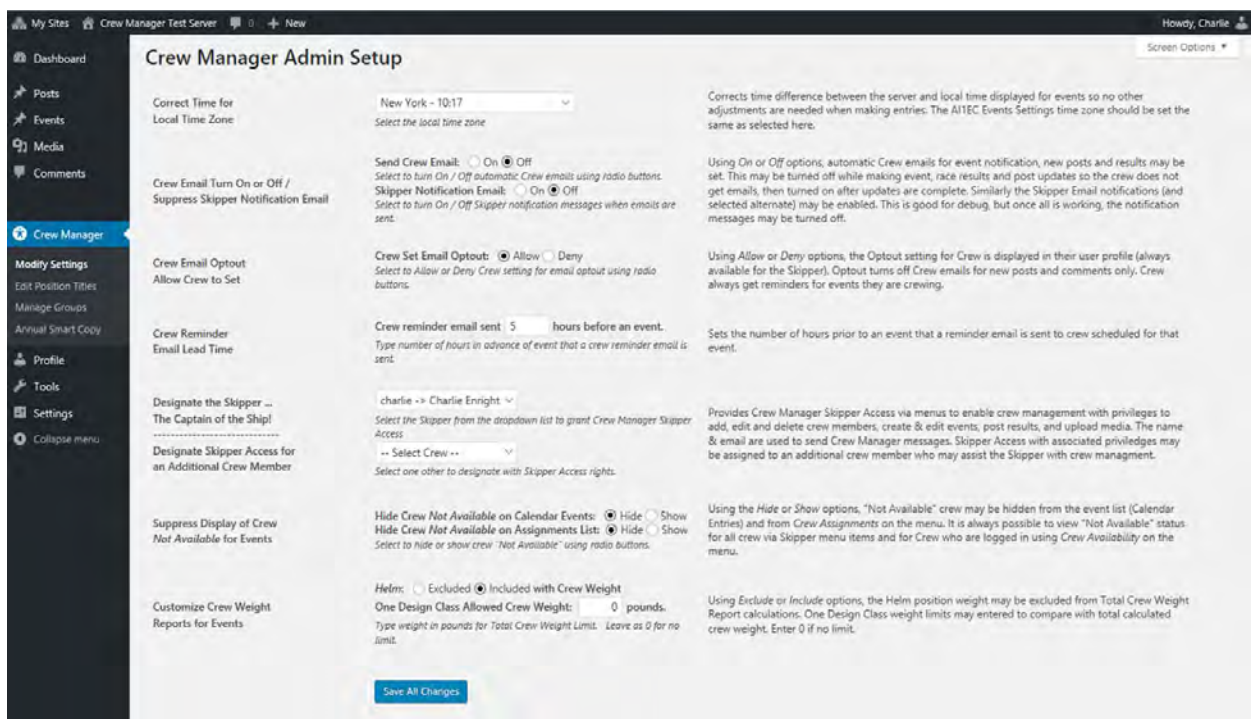

1. Log in to your *Crew Manager* site as the Skipper if you have multiple logins. The *Skipper* menu will appear in the menu bar.
2. Once logged in mouse over *Skipper* on the menu and click on *WordPress Admin*
3. The WordPress Admin screen will load. On the left side menu, mouse over *Crew Manager* and click on *Modify Settings*.

# Skipper Directions for Crew Manager

This opens the Crew Manager Admin Setup page where all of the default settings for Crew Manager may be modified. The page is shown below followed by an explanation of the settings that may be modified.

4. **Correct Time for Local Time Zone:** Select the default time zone from the drop down if not New York. The program automatically compensates for the shift between daylight

# Skipper Directions for Crew Manager

savings and standard time for those time zones that change. The AI1EC Events Settings time zone should be set the same as selected here.

5. **Crew Email Turn On or Off / Suppress Skipper Notification Email:** Using the radio buttons select whether to have crew emails sent for event reminders, notices when results are posted, and notices when new posts or comments are posted. The Skipper receives a completion report after the emails are sent if the option is *On*. This is good for debug, but once all is working, the notification messages may be turned off.
6. **Crew Email Optout Allow Crew to Set:** This allows the Skipper to enable a checkbox where crew members may opt out of receiving *All Posts* and comments emails. Event reminders will always be sent no matter what Optout setting is used.
7. **Crew Reminder Email Lead Time:** Type in the crew reminder email lead time if not 36 hours for automatic emails sent. Enter the lead time as a whole number.
8. **Designate the Skipper... The Captain of the Ship!:** Using the drop down select who the Skipper is. The Skipper gets access to all the Skipper screens and can manage Crew assignments. All emails sent to the Crew appear to come from the Skipper's email address.
9. **Designate Skipper Access for an Additional Crew Member:** Using the drop down select an additional Crew member who will have Skipper access, if desired. This individual gets access to all the Skipper screens and can manage Crew assignments the same as the Skipper.
10. **Suppress Display of Crew *Not Available* for Events:** Using the *Hide* or *Show* options, "Not Available" crew may be hidden from the event list (Calendar Entries) and from Crew Assignments on the menu. The default setting keeps "Not Available" Crew hidden. It is always possible to view "Not Available" status for all crew via Skipper menu items and for Crew who are logged in using Crew Availability on the menu.
11. **Customize Crew Weight Reports for Events:** This is used for One Design classes that have weight limits. Set the maximum allowed total crew weight in lbs. Click the appropriate radio button to include or exclude Helmsman's weight in the total.
12. **Automatically Generate WordPress Menu:** This option is only visible to users with administrative access (not the default for Skippers). This allows customization of the website with additional menu pages. Leave this *On* if no custom pages are used. Turn *Off* with custom pages. A menu must be built manually using the WordPress menu settings.
13. When all the settings are as you desire, click the blue button at the bottom labeled *Save All Changes*.

## Crew Manager Admin Setup - Edit Position Titles

The Crew Manager plugin loads a number of crew positions that may be assigned by the Skipper. The titles on the crew positions may be edited, deleted or new positions added. A word of caution: Deleting a position title that any crew member has been assigned to for an event will require that the crew member be assigned to another position.

There are four position titles with special functions that are not displayed on the editing screen. These may not be deleted or modified.

# Skipper Directions for Crew Manager

- *Helm* is used for One Design weight calculations and may not be deleted. It may be included or excluded from the calculation.
- *Not Assigned* is default for crew not yet assigned to a position by the Skipper. The row is color coded with a white dot / white background.
- *Standby Crew* is assigned by the Skipper for crew who may be scheduled for the event, but not yet confirmed. The crew member must verify with the Skipper the day of the event if still coded as *Standby Crew*. The row is color coded with a yellow dot / yellow background.
- *Stay Ashore* is assigned when there are too many crew with availability set to Yes or Maybe. This designates a crew member who is not on the boat for the event. The row is color coded with a red dot / pink background.

Any crew member who has indicated *Yes* for availability and is assigned a position by the Skipper designates a crew member confirmed for the event. The row is color coded with a green dot / green background, unless assigned the position of *Standby Crew* or *Stay Ashore*.

Any crew member who indicated *Maybe* for availability and is assigned a position by the Skipper designates a crew member as possible for the event. The row is color coded with a yellow dot / yellow background. If the individual changes availability to *Yes* the position is confirmed and the row is color coded with a green dot / green background.

Assuming you are already logged in as the Skipper, do the following to update, delete or add a crew position.

1. On the left side menu, mouse over *Crew Manager* and click on *Edit Position Titles*.

2. To modify a position title, edit the text in the white text boxes to the desired position title to be displayed. This can be done for multiple positions at once.
3. To delete a position, check the delete box next to the position name. This can be done for multiple positions at once.
4. To add a position, type the new position title in the text box at the bottom of the list. Only a single position may be added at a time.
5. When all the position title modifications are as desired, click the blue button at the bottom labeled *Submit Position Updates*.

# Skipper Directions for Crew Manager

## Crew Manager Admin Setup - Manage Email Lists & Other Groups

Crew Manager provides the ability to assign people to three groups.

*All Posts* - new posts published and related post comments submitted are emailed to this group.

*Core Crew* - receives special email messages sent by the Skipper from *Skipper Send Email* on the *Skipper* menu. This is a handy to easily contact a select crew group.

*Retired* - group is removed from the crew roster display, and the crew dropdowns when assigning positions. The users still have accounts and may log in.

Update email distribution as crew members are added, or crew members are no longer active. For Crew who join for only one or two events add as users without checking All Posts so they will receive event reminders and results for events crewed but don't need to receive posts that are published. Check Retired to remove them from the dropdowns when no longer needed. Crew that are scheduled for an event will always receive email notifications for the event, no matter what group assigned to.

Assuming you are already logged in as the Skipper, do the following to update the email list:

1. On the left side menu, mouse over *Crew Manager* and click on *Manage Groups*.

**Manage Email Lists & Other Groups**

Update Email Groups for Sending Posts to selected Crew Members & Display on Crew Dropdowns

Check the boxes by each name to include selected crew members in the labeled groups, then click *Update Groups* to save the changes.

*Retired* group is removed from the crew roster display, and the crew dropdowns when assigning positions. The users still have accounts and may log in.  
*Core Crew* group receives special email messages sent by the Skipper  
*All Posts* group receive new posts published and related post comments submitted

Update email distribution as crew members are added, or crew members are no longer active. For Crew who join for only one or two events add as users without checking *All Posts* so they will receive event reminders and results for events crewed but don't need to receive posts that are published. Check *Retired* to remove them from the dropdowns when no longer needed.

Retired: <input checked="" type="checkbox"/>	Core Crew: <input type="checkbox"/>	All Posts: <input type="checkbox"/>	Admin -- admin --> admin@crew-mgr.com

[Update Groups](#)

2. The list of all crew members is displayed in alphabetical order preceded by the three groups with check boxes.
3. Assignments for each group may be made by checking or unchecking the group boxes for each person as desired.
4. When assignments are complete, click the blue *Update Groups* button at the bottom to save the updates.

# Skipper Directions for Crew Manager

## Copy Past Season Schedule - Annual Smart Copy

After Crew Manager has been used for a season, a new schedule may be easily copied from a previous season. Annual Smart Copy is available to the Skipper in the admin screen to allow copying selected events for the next season. Events may be copied from a selected calendar year to future dates with a selectable offset. This will reduce typing and simplify scheduling. Many events occur each year with fixed dates or days of the week. Annual Smart Copy allows copying past events to the future with dates advanced the specified number of days. The following are copied for each event: Event Title, Start / End Date & Time (advanced as selected), Event Location Details, Event Cost & Tickets, Organizer Contact Info, Event Text Field, Uniform (Custom Field), and Featured Image. Only the first entry of a repeating event is copied. The following are purposely not copied to the new event: certain custom fields (registered, fees paid, results, results link, series results, series results link), Crew availability, positions & assignments. A repeated event is shown on the list with the date spanning two lines. The repeated event is copied using the first date in the series as a single event. Repeated dates & excluded dates must be edited in the copied event. Copied events may be edited as desired to update for the next season. Crew availability needs to be set and assignments made for the copied entries.

Smart Copy may be run on different batches of events to create a new season. An example is a regatta that is scheduled once every two years. The Year to Copy would be a year previous to the current year. The older event(s) may be selected and advanced 728 days (or offset that may be applicable) to create the new event for editing. Once that is complete, the current year would be selected to Smart Copy the desired events to next year.

Assuming you are already logged in as the Skipper, do the following to copy a past season schedule.

1. On the left side menu, mouse over *Crew Manager* and click on *Annual Smart Copy*.

**Smart Copy Events to Next Year**

Copy selected events to future year, advancing dates so they occur the same week day

Events may be copied from a selected calendar year to future dates with a selectable offset to reduce typing and simplify scheduling. Many events occur each year with fixed dates or days of the week. This screen allows copying past events to the future with dates advanced the specified number of days. The following are copied for each event: Event Title, Start / End Date & Time (Advanced as selected), Event Location Details, Event Cost & Tickets, Organizer Contact Info, Event Text Field, Uniform (Custom Field), and Featured Image. Only the first entry of a repeating event is copied. The repeated dates & excluded dates must be edited in the copied event. Copied events may be edited as desired to update for the next season with crew availability to be set and assignments made.

1. Select Year to Copy and Days to Advance, then click Update Dates to save the changes. You may iterate this to obtain the desired date offset (match week days). Events are not copied until the Smart Copy Events button is clicked in step 4.  
2. Check / Uncheck boxes next to each event to choose which events are copied. Checked events will be copied in step 4.  
3. Click Update Dates to update the event table Advanced Date column and verify those events to be copied. Iterate steps 2 and 3 as necessary.  
4. Click Smart Copy Events at bottom of list only once to create the copied events for next year.

Year to Copy: 2019 Days to Advance: 364 Example: Monday, Apr 15th 2019 advances to Monday, Apr 13th 2020 <== Update Dates

Copy	Event & Location	Original Date	Advanced Date
<input checked="" type="checkbox"/>	Sample Event @ Block Island Boat Basin	Tue, Feb 26th 2019	Tue, Feb 25th 2020
<input checked="" type="checkbox"/>	Instrument Training & Practice Sail @ Navy Marina Slip A49	Tue, Apr 23rd 2019	Tue, Apr 21st 2020
<input checked="" type="checkbox"/>	Around Aquidneck/Spring Race @ G3 Gona Pt Green 4sec SSE of Hog Island Light	Sat, Jun 22nd 2019	Sat, Jun 20th 2020
<input checked="" type="checkbox"/>	Cuttyhunk Race @ G-3" Southeast of Rose Island	Sat, Jul 20th 2019	Sat, Jul 18th 2020
<input checked="" type="checkbox"/>	Block Island Race @ G-3" Southeast of Rose Island	Sat, Aug 3rd 2019	Sat, Aug 1st 2020
<input checked="" type="checkbox"/>	Block Island Race Return @ R-2" Northwest of the New Harbor entrance	Mon, Aug 5th 2019	Mon, Aug 3rd 2020
<input checked="" type="checkbox"/>	Prince Henry Race @ Various designated marks in Narragansett Bay for start	Sat, Aug 24th 2019	Sat, Aug 22nd 2020
<input checked="" type="checkbox"/>	US30 North American Championship @ Annapolis YC	Thu, Sep 19th 2019 - Sun, Sep 22nd 2019	Thu, Sep 17th 2020 - Sun, Sep 20th 2020
<input checked="" type="checkbox"/>	Fall Race around Prudence @ West of Prudence Island Vicinity of Pine Hill Point	Sat, Sep 21st 2019	Sat, Sep 19th 2020

Example: Monday, Apr 15th 2019 advances to Monday, Apr 13th 2020 <== Update Dates

# Skipper Directions for Crew Manager

2. The list of events defaults to the current year for Year to Copy, and 364 for Days to Advance resulting in future dates occurring the same day of the week, one year later (except for leap years). These may be changed using the Year to Copy dropdown and Days to Advance box. Clicking *Update Dates* refreshes the list.
3. Each Event & Location are displayed in a column as a link. Clicking the link opens the original event in a new page should it be desired to see the event details.
4. The Copy column has a checkbox next to each event. The box should be checked to copy the event. There are buttons above the table to check or uncheck all boxes to make individual selections easier. Once the desired event boxes have been checked or unchecked, click the *Update Dates* button at the top or bottom of the list to update the display for review.

The list is updated with those events excluded from copy having a blank in the Advanced Date column. A blue *Smart Copy Events* button appears at the bottom. Do not click this button until the events are listed for copy as desired. Steps 3 and 4 may be iterated as necessary to make corrections before executing the Smart Copy.

## Smart Copy Events to Next Year

Copy selected events to future year, advancing dates so they occur the same week day

Events may be copied from a selected calendar year to future dates with a selectable offset to reduce typing and simplify scheduling. Many events occur each year with fixed dates or days of future with dates advanced the specified number of days. The following are copied for each event: Event Title, Start / End Date & Time (Advanced as selected), Event Location Details, Event C Uniform (Custom Field), and Featured Image. Only the first entry of a repeating event is copied. The repeated dates & excluded dates must be edited in the copied event. Copied events may crew availability to be set and assignments made.

1. Select Year to Copy and Days to Advance, then click *Update Dates* to save the changes. You may iterate this to obtain the desired date offset (match week days). Events are not copied until
2. Check / Uncheck boxes next to each event to choose which events are copied. Checked events will be copied in step 4.
3. Click *Update Dates* to update the event table Advanced Date column and verify those events to be copied. Iterate steps 2 and 3 as necessary.
4. Click *Smart Copy Events* at bottom of list only once to create the copied events for next year.

Year to Copy: 2019 ▾ Days to Advance: 364 Example: Monday, Apr 15th 2019 advances to Monday, Apr 13th 2020 <== Update Dates

**Smart Copy Events** Do not click *Smart Copy Events* until the table above is annotated with the desired Advanced Date values for all rows.

5. When the list of events to be copied and advanced is as desired, click the blue *Smart Copy Events* button once. The events will be copied and display a message showing the results, and the *Smart Copy Events* button is removed to prevent an inadvertent copy action. (See picture that follows this step).

Copied events are available to edit on Events menu to left. Events are copied with all fields except for results, results links, registration, and fee paid status.

# Skipper Directions for Crew Manager

Crew entries for copied events are reset and may be populated for the new entries. Repeating events must be edited to update the interval & number of repetitions.

## Smart Copy Events to Next Year

Copy selected events to future year, advancing dates so they occur the same week day

Events may be copied from a selected calendar year to future dates with a selectable offset to reduce typing and simplify scheduling. Many events occur each year with fixed dates or days of the week. Events can be copied to a future year with dates advanced the specified number of days. The following are copied for each event: Event Title, Start / End Date & Time (Advanced as selected), Event Location Details, Event Uniform (Custom Field), and Featured Image. Only the first entry of a repeating event is copied. The repeated dates & excluded dates must be edited in the copied event. Copied events may be edited to set crew availability to be set and assignments made.

1. Select **Year to Copy** and **Days to Advance**, then click **Update Dates** to save the changes. You may iterate this to obtain the desired date offset (match week days). Events are not copied until step 4.
2. Check / Uncheck boxes next to each event to choose which events are copied. Checked events will be copied in step 4.
3. Click **Update Dates** to update the event table **Advanced Date** column and verify those events to be copied. Iterate steps 2 and 3 as necessary.
4. Click **Smart Copy Events** at bottom of list only once to create the copied events for next year.

Year to Copy: 2019 Days to Advance: 364 Example: Monday, Apr 15th 2019 advances to Monday, Apr 13th 2020 <== Update Dates

Check All Uncheck All Invert Selection

6 Events Successfully Copied with Dates Advanced

Copied events are available to edit on **Events** menu to left. Events are copied with all fields except for results, results links, registration, and fee paid status.

Crew entries for copied events are reset and may be populated for the new entries. Repeating events must be edited to update the interval & number of repetitions.

## Load the Season Schedule - All In One Calendar Events

Crew Manager takes advantage of the All in One Event Calendar (AI1EC) plugin by Timely to setup a calendar for the season. The AI1EC plugin provides a full featured calendar with different views available. It also supports graphical icons associated with events that provide a professional look. AI1EC has integrated the ability to add custom fields, which Crew Manager takes advantage of for Uniform (e.g. what color shirts to wear), Registered (Yes - the boat has registered for the event) and Fees Paid (Yes or a date when the fees are due). After the event, the entry may be updated with the finish (1 of 7 or 1st) and a link to the finish results. It also allows entry of a series finish (2 of 7) and a link for the series results. The AI1EC plugin allows a one-time import of another calendar for free to load events. If you desire to import other calendars or feeds, there is information on the AI1EC menu when logged in as an administrator by mousing over **Events** on the left menu, then clicking on **Import Feeds**.

The minimum information required for AI1EC entry includes:

- Event Title - the name of the event
- Date - the day the event is scheduled
- Location - Where the boat will be located for the event

Additional information that is recommended for the AI1EC entry includes

- Start time - The time the Skipper wants people at the boat

# Skipper Directions for Crew Manager

- Category - A checkbox that allows filter views (e.g. PHRF, Delivery, Cruising, One Design)
- Uniform - A text field to let the crew know what to wear (e.g. white shirts)
- A description with supplementary information - This is a free form text field where information about the race may be entered. Consider adding tides and currents, post event party plans, links to the NOR and SI, or whatever the crew would find helpful preparing for the event
- Featured Image - this allows upload of an image to be displayed with the event. The organizers burgee or the race logo provides a nice touch when users mouse over the event.
- The end time and ability to repeat and event is included in the date & time section

In summary - AI1EC calendar entry reminders scheduled by Crew Manager are sent automatically and will include all this information sent to crew members. Take the time to provide as much information possible so the Skipper doesn't get last minute phone calls!

Assuming you are already logged in as the Skipper, do the following to create a new calendar event. In the example below, sample text is used to illustrate an entry.

1. On the left side menu, mouse over *Events* and click on *Add New*. The Add New Event page opens.

**Add New Event**

Enter title here

**Block where Title is entered**

**Published status block showing Draft, Scheduled or Publish. Includes Preview, Save Draft & Publish Buttons**

**Categories area where a category may be designated**

**Event Details area where Date, Time and Repeating info is entered**

**Featured Image area where an image may be added to the event**

2. *Enter Title Here:* JYC Spring Race #1
3. *Event Date and Time:* Click date chooser and select May 8, 2018 and the time 5:15pm (time to be at the boat)
4. *Event Date and Time:* Check *No end time* or use the date chooser to select a day and time.

# Skipper Directions for Crew Manager

5. *Event Location Details: Navy Marina* in Venue Name. For away locations, consider entering the complete address

The screenshot shows the 'Add New Event' form. The left sidebar has 'Events' selected. The main form has a title field 'Enter title here'. Below it is the 'Event Details' section with three expandable parts: 'EVENT DATE AND TIME', 'EVENT LOCATION DETAILS' (which is expanded), and 'EVENT COST AND TICKETS'. The 'EVENT LOCATION DETAILS' section contains fields for 'Venue name:', 'Address:', and an 'Input Coordinates' checkbox. A 'Show Map' checkbox is on the right. A blue callout bubble points to the 'Venue name' field with the text: 'Event Location Details – Enter the place to be in the Venue Name. Add an address if it might help the crew.'

6. *Event Cost & Tickets*: leave blank or fill in the external link if you want crew to purchase tickets for an event. It is a good place to put the Yachtscoring link for an event.

The screenshot shows the 'Add New Event' form, specifically the 'Event Cost and Tickets' section. The 'EVENT COST AND TICKETS' section is expanded, showing three radio buttons: 'No Tickets' (selected), 'Time.ly Tickets', and 'External Tickets'. Below these is a 'Free Event' checkbox and a 'Cost' input field. A blue callout bubble points to the 'External Tickets' radio button with the text: 'Add optional information for tickets – External Tickets opens a box to enter a link'. The 'ORGANIZER CONTACT INFO' section is partially visible below.

# Skipper Directions for Crew Manager

7. *Organizer Contact Info*: leave blank or fill in info if it would help the crew

8. *Text Area for Details*: Type free form text with any information that might help the crew. Tides and currents expected, link to race documents, etc. Note the tabs at the top right or the box labeled *visual* and *text*. Text is basic and allows use of raw html. Visual provides an editing toolbar. **Note:** Crew Manager automatically adds the text [crew] at the end of this field when it is saved. This is a shortcode that tells WordPress to display the custom Crew Manager information (crew list, positions, assignments, shirts, etc.) to those viewing the event. If you inadvertently remove [crew] when editing, the Crew Manager information will not be displayed. Should this happen, just open the event to edit and type [crew] at the end of the field and click Publish to save it.
9. *Categories*: Check which category this event is (PHRF, One Design, Delivery, etc.)
10. *Featured Image*: Click on *Set Featured Image* to open the media library. If the image is not in the library, it may be uploaded.
11. *Custom Fields*: Click the arrow on the *Select* dropdown, then click *uniform*. In the *Value* field type White Shirts, then click the *Add Custom Field* button. The Skipper may add new custom fields that may be displayed on any event. A link may be inserted in the *Value* field. If a link is inserted the field *Name* is displayed as a clickable link that opens in a new page (e.g. *Name* as "Notice of Race" with a link in *Value* displays *Notice of Race* as a link that may be clicked for that event).

# Skipper Directions for Crew Manager

There are pre-defined fields labeled *registered* and *fees\_paid*. The first is used to indicate when the Skipper has registered for an event by entering "Yes". The *fees\_paid* field may include a date in m/d/y format along with text. Something such as "Payment due 7/23/2019". In addition to these fields, the Skipper may put the Event Website URL in the *Organizer & Contact* section for the event. The payment URL such as the Yachtscoring Link may be put in the *Event Cost & Tickets* section by selecting *External Tickets* and entering the link in the field labeled *Tickets URL*. When the URLs are entered for the event and payment the *Regatta Registration Status* report will display links to easily access the target locations. An automatic email reminder is sent to the Skipper 5 days prior to the payment due date listed. When payment is made, the *fees\_paid* field should be updated to include the word "paid" so that reminders will not be sent.

12. Scroll up and click the *Save Draft* button. Click the *Preview* button and check your work in the page that opens. Go to the original page being edited and make any corrections. Click *Publish* when complete. Close the preview window that opened.

## Splitting a Repeating Event into Single Events

The All in One Event Calendar has a feature to enter repeating events. This is handy if you have a multi-day regatta or a series such as a weekly spring or weekly summer series. It allows the basics to be entered (title, date & time, place, featured image, special fields and text). A recurring event is created by checking the Repeat box in the Event Date & Time section and the Exceptions box if there is a lay day or skipping a day in a series. Once a repeating event is created, you will want to split into separate events if any of the following apply.

- The Crew is different on any of the days
- The start time (time to be at the boat) or location is different on any of the days
- The text included is different for any day (e.g. you may include text about post race activities that are different each day)
- You want to specify a different Uniform for each day (e.g. white shirts one day, blue shirts the next)

Splitting a repeating event into separate events is described in this Time.ly AI1EC support article [How to Edit One Instance of a Recurring Event](#). Here are some pointers on how to easily do this in Crew Manager.

1. The Skipper must be logged in
2. Click *Calendar* on the menu
3. Click the dropdown in the upper right of the event list labeled *Agenda* and select *Month*
4. Use the date chooser at the top of the calendar and navigate to the desired month the event starts
5. You will now open and edit each of the repeating events starting with the first one. It is easier to right click on each event to open that event in a new window. Otherwise you'll need to repeat steps 2 - 4 after editing an event.
6. For each event instance opened to the right of the Date/Time is a Repeats and an Edit this occurrence icon . Click on the *Edit this occurrence* icon.

# Skipper Directions for Crew Manager

7. Make any changes desired to this occurrence, then click the blue *Update* button. If the only change is the Crew for that day, just click the blue *Update* button and the event will be split from the repeating series allowing different Crew for that day.
8. Close that editing window once it has saved and repeat steps 6 and 7 until you have edited all the desired events.

## Some Handy Tips for Events:

- When entering a series (e.g. JYC Spring Series) make the first entry with the label JYC Spring #1. In the date chooser, once the start date and time are entered, check the *Repeat* box and setup “repeats every week”, then set the number of occurrences or the end date. Save as draft, then you may edit each week and fill in the race number (JYC Spring #2, JYC Spring #3, etc.).
- Copying a previous event that is similar using *Clone to Draft* makes it easy to create a new entry without having to type the details. The date may be modified, and the title change. If results are recorded on the event being copied, turn off crew email notifications while copying events. Strip out the results in the new events, then enable crew emails again.
- When logged in as the Skipper, you may edit events from the front of the website. Click *Calendar* on the menu, then Click on the + symbol to expand a particular event and see the details. As you mouse over each event the *Edit* link will be displayed that you may click on to edit that event.

## Skipper sets “Availability”, “Position” & “Assignments” for events

Once the Crew is loaded into WordPress as *Subscribers* and the boat schedule is entered as AI1EC events, the availability of each Crew member is set for each event. Ideally each crew member does this by logging in and setting their availability using the procedure outlined in the *Crew Member Team Website Directions* manual.

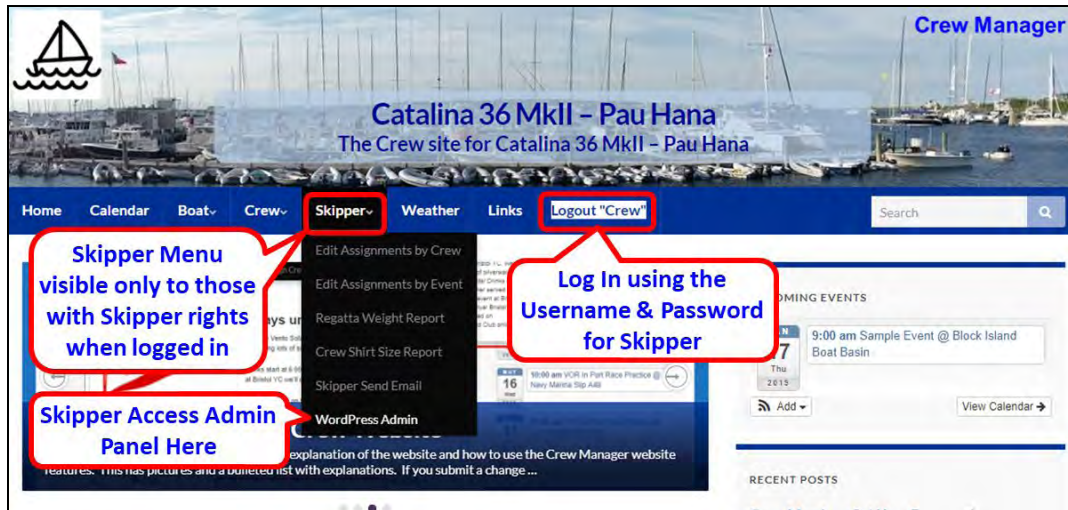

The Skipper may also set availability for any crew member as follows:

Assuming you are already logged in as the Skipper, do the following to set availability, positions and assignments for any Crew.

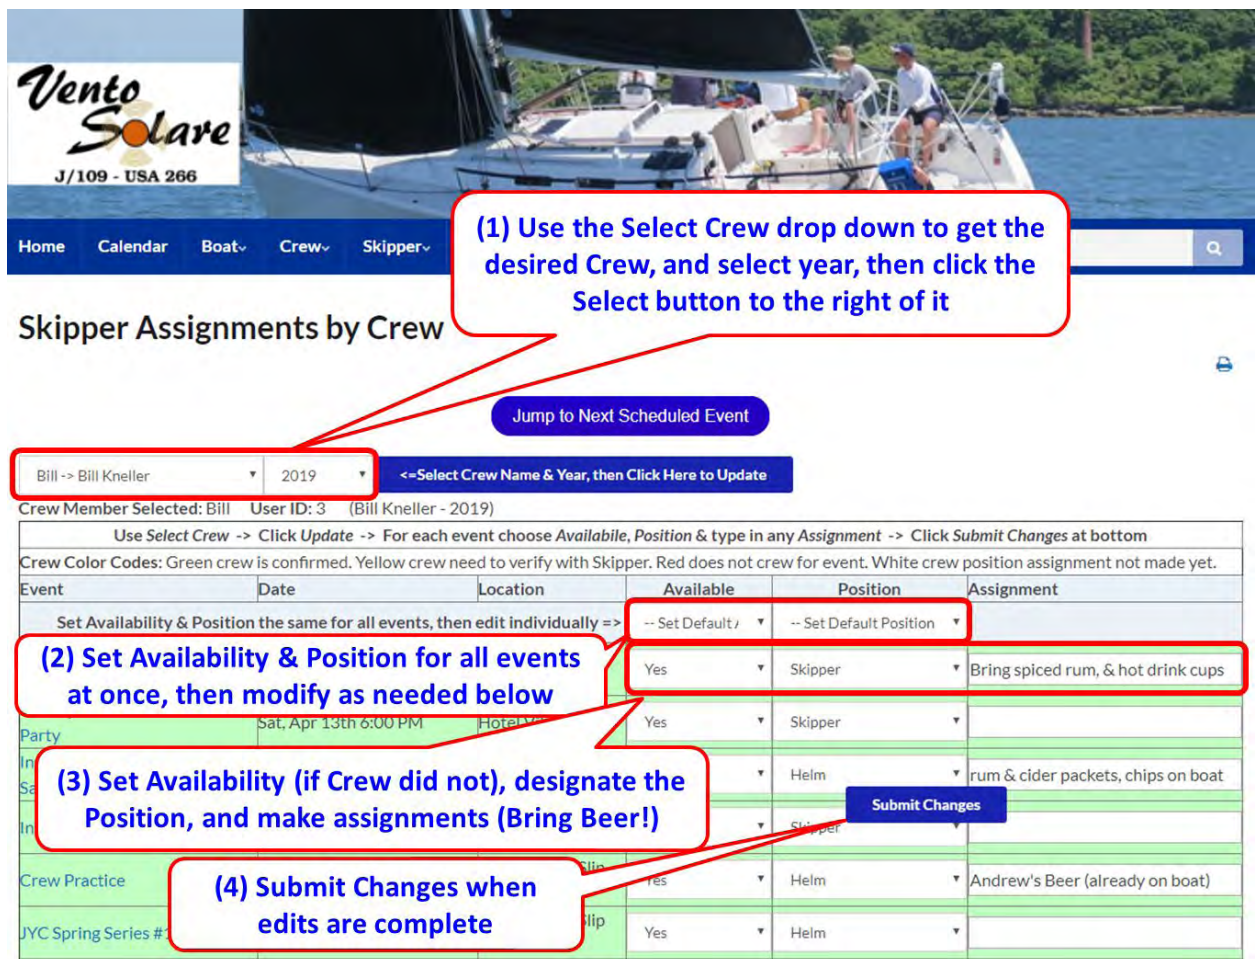

# Skipper Directions for Crew Manager

1. On the top menu, mouse over *Skipper* then click on *Edit Assignments by Crew*.

2. On the page that opens, click the *Select Crew* drop down arrow to open the drop down and select a crew member by clicking on the name. If the desired year is not shown, click the drop down to select the year.

3. Click the blue *Select Crew Name & Year ...to Update* button. The screen will update and load information for the selected Crew member.

# Skipper Directions for Crew Manager

4. The entire season is displayed by event with master selectors at the top of the *Availability* and *Position* columns to set all events at once.
5. You may change the Crew members availability to Yes, No or Maybe for any event
6. You may designate a Crew position using the position drop down for any event.
7. You may assign the Crew member a task in the text box such as "Bring Beer"
8. Click the floating blue button labeled *Submit Changes* to save the changes
9. The screen refreshes with any changes made - no notifications are sent, unlike when a crew member updates availability

## Alternate Method for Skipper Setting Availability, Positions & Assignments

The previous section described a process where the Skipper set Availability, Position and made Assignments using a view for each individual crew member. **Note:** A Crew member who has not set availability for an event already will not show up on the Crew list for an event using this option. There may be times when the Skipper wants to see all Crew listed for a regatta and make changes. This is enabled via the second option under the *Skipper* menu labeled *Edit Assignments by Event*.

The Skipper may set availability for any crew member on an event view as follows:

Assuming you are already logged in as the Skipper, do the following to set availability, positions and assignments for any Crew.

1. On the top menu, click the down arrow next to *Skipper* then click on *Edit Assignments by Event*.
2. If the desired year is not shown, click the drop down to select the year, click the dropdown to select desired event categories, then click the blue *Select Year, then Click Here to Update* button next to the year. The entire season is displayed by event.

### Edit Assignments by Event

[Jump to Next Scheduled Event](#)

2019 \* -- All Event Categories -- \* <-Select Year & Event Category, then Click Here to Update

For each crew in an event choose *Available*, *Position* & type in any *Assignment* -> Click *Submit Changes* at bottom

Crew Color Codes: Green crew is confirmed. Yellow crew need to verify with Skipper. Red does not crew for event. White crew position assignment not made yet.

Event	Date	Location	Uniform	Registered	Fees Paid	Results
Sample Event	Tue, Feb 26th 11:00 AM	Block Island Boat Basin	Wear White Shirts	registered	Yes	1 of 7
		Name	Available	Position	Assignment	
		Charlie Enright	Yes	Skipper	Bring Beer	
		Crew Member	Yes			
		Dee Caffari	Yes			
		Sam Davies	Yes	Headsail Trimmer		
		Dennis Conner	Maybe	Rail Meat		
		William Bligh	Yes	Stay Ashore	Fix your attitude Captain Bligh	
Total Crew 6 = Confirmed (5) + Maybe (1)						

**Note: Names only show in this view if availability was previously set to Yes, No or Maybe.**

**(1) Modify Availability, designate the Position, and make assignments (Bring Beer!)**

**(2) Submit Changes when edits are complete**

[Submit Changes](#)

# Skipper Directions for Crew Manager

3. You may change the Crew members availability to Yes, No or Maybe for any event (only if Availability was previously set for an event)
4. You may designate a Crew position using the position drop down for any event.
5. You may assign the Crew member a task in the text box such as "Bring Beer"
6. Click the floating blue button labeled *Submit Changes* to save the changes
7. The screen refreshes with any changes made - no notifications are sent, unlike when a crew member updates availability

## Remind Crew - Notify Maybe to Update Availability

Crew members may initially set their availability to *Maybe* for some events. As the season progresses the Skipper may want firm commitments so that other people may fill vacant spots and crew positions assigned. The menu item *Notify Maybe to Update Availability* is on the Skipper menu to identify individuals who have set availability to *Maybe*. There are filters to select by category (e.g. PHRF, One Design, All Categories) and for a date range with selectable start and end dates. Once the categories and dates have been filtered as desired, the Skipper checks boxes for events a Crew reminder should be sent. This is sent as an email to the designated Crew, and an optional SMS text message if the Crew opted to receive text messages in their profile. Assuming you are already logged in as the Skipper, do the following to send a reminder for designated Crew to update availability from *Maybe* to *Yes* or *No*.

1. On the top menu, click the down arrow next to *Skipper* then click on *Notify Maybe to Update Availability*.
2. The page opens and defaults to show all categories with dates filtered starting today through 30 days later. These may be changed, and the *Select Event Category & Date*

# Skipper Directions for Crew Manager

Range button is clicked. The screen will refresh with the updated selections.

**Notify Maybe to Update Availability**

Notify via email those crew who set Available as *Maybe* to update their response to *Yes* or *No*.

1. Choose the Event Category & Date Range, then click the blue **<=Select Event Category & Date Range...** button
2. Check the *Notify* boxes as required - the *Check All*, *Uncheck All* and *Invert Selection* buttons may be used in addition to individual check box selections
3. Click the blue *Send Notification Email* button to send a personalized email with checked events consolidated for each crew member

Event Category: -- All Event Categories --    Starting From: 06/20/2019    Through Date: 07/20/2019    **<=Select Event Category & Date Range, then Click Here to Update**

Set Notify Boxes - Check All, Uncheck All, and change Notify check boxes below as required => [Check All](#) [Uncheck All](#) [Invert Selection](#)

Cheryl Marrone

3. There are *Notify* check boxes at the right of each event. These may be selected in bulk using the *Check All* button at the top of the table. Individual boxes may also be clicked.
4. Once the desired boxes are checked, the floating *Send Notification Email* button is clicked. This results in reminder emails being sent with events aggregated in a single email per person. A summary email is sent to the Skipper if the *Skipper Notification Email* is enabled on the Crew Manager *Modify Settings* page. A confirmation that emails were sent is also displayed on the page.

## Notify Maybe to Update Availability

**2 People notified to update Maybe to Yes or No.**

Notify via email those crew who set Available as *Maybe* to update their response to *Yes* or *No*.

1. Choose the Event Category & Date Range, then click the blue **<=Select Event Category & Date Range...** button
2. Check the *Notify* boxes as required - the *Check All*, *Uncheck All* and *Invert Selection* buttons may be used in addition to individual check box selections
3. Click the blue *Send Notification Email* button to send a personalized email with checked events consolidated for each crew member

Event Category: -- All Event Categories --    Starting From: 03/01/2019    Through Date: 07/19/2019    **<=Select Event Category & Date Range, then Click Here to Update**

# Skipper Directions for Crew Manager

## Recording Race Results

Race results are easily entered on existing AI1EC calendar events. The easiest method is to open the calendar, find the event, and edit the event. The event could also be edited from the WordPress admin panel by finding the event on the event list, then editing it there.

Assuming you are already logged in as the Skipper, do the following to edit an existing calendar event.

1. On the top menu, click on *Calendar*.
2. Navigate forward or reverse using the left and right arrows as needed to have the event show on the page

**North Sails Spinnaker Trial @ Borden Light Marina** [Edit](#)

Apr 17 @ 2:45 pm – 4:45 pm

**NORTH SAILS**

This is a good weather only event that has been moved from Monday to Tuesday due to weather. It will be rescheduled if the weather does not support a good photo shoot and flying the spinnaker!

We will make a decision the evening before on weather and notify everyone on the plan to go or not.

North Sails will be looking at a new spinnaker design and the North Sails crew will be onboard to take pictures. Meet at the Borden Light Marina slip @ 2:45pm to rig the boat and plan on going out at 3pm.

Crew includes:  
Chuck Allen  
Jack Orr  
Brooke Mastrorio  
Tim Kohl  
plus below

**Be at Borden Light Marina - Tue April 17th @ 2:45PM**

Crew Color Codes: Green crew is confirmed. Yellow crew need to verify with Skipper. Red does not crew for event. White crew position assignment not made yet.

Name	Position	Assignment	Available
Bill	Helm		Yes

Add Custom Field

Custom Fields for results and the results link may be accessed by clicking the *Custom Field* dropdown.

The results data and link are typed in the text box next to the custom field name

Click Add Custom Field when ready to save the results

# Skipper Directions for Crew Manager

5. *Custom Fields*: Click the arrow on the *Select* dropdown, then click *race\_results*. In the *Value* field type results (e.g. 1st, 3 of 8, etc.), then click the *Add Custom Field* button. If there is a link to the results on the web, repeat the procedure and select the custom field *race\_results\_link*. The full link is typed (or pasted) into the *Value* field. The *race\_results\_link* may be preloaded with a url to the results, but will not display until the *race\_results* field is populated.
6. If there are series results, the same procedure is used using the custom field names *series\_results* and *series\_results\_link*. The *series\_results\_link* may be preloaded with a url to the results, but will not display until the *series\_results* field is populated.
7. Changes for custom fields are automatically saved when the *Add Custom Field* button is clicked. There is no need to click the blue *Update* button unless it is desired to email the results to the Crew. To send the results via email, scroll up and click the blue *Update* button on the right side. If Crew Emails are enabled, an immediate email is sent to crew members listed as Crew for that event.

The race results are displayed in multiple areas including:

- On the main menu *Race Results by Year* under *Boat*
- In the respective calendar entry when the event is opened
- On the main menu *Assignments* under *Crew*, results are shown in the header for each event
- On the main menu *Edit Assignments by Event* under *Skipper*, results are shown in the header for each event
- In Crew emails that are sent if the Crew Email option is enabled

## Regatta Weight Reports

Crew Manager can store the weights, US Sailing IDs and World Sailing IDs for each crew member. These may be used to generate a One Design report that sums crew weights and displays the Sailor Classification for each crew member. The report may be run for any event. Only the Skipper may see weights for crew assigned to an event. If One Design limits are entered, the amount under / over the limit is shown. Standby crew are shown in a separate list on the same page. It also displays the World Sailing Category declared by each crew member. A button is available to automatically validate the World Sailing Classification for each Crew member using the World Sailing database. Links are provided to the US Sailing and World Sailing profiles for each crew member.

Assuming you are already logged in as the Skipper, do the following to view a report.

1. On the top menu, click the down arrow next to *Skipper* then click on *Regatta Weight Report*.
2. Defaults to Current Year and One Design. If another year or Event Category is desired, update the dropdowns for Year and Event Category and click the blue *Select Year & Category...* button to update the event list.
3. Select the desired event using *Select Regatta for Report* dropdown
4. Click the blue *Select Year & Category ...* button

# Skipper Directions for Crew Manager

5. A report is displayed with the results similar to below. The declared sailor classification stored in a crew members profile is displayed. When a crew member stores their World Sailing Sailor ID, the classification may be validated by checking the box and clicking the blue *Select Year & Category ...* button. It may take a couple of minutes for the World Sailing database to return the results.

## Crew Shirt Size Report

Crew Manager can store the shirt, jacket and short sizes for each crew member. When the Skipper needs to buy swag for the Crew, this report displays a matrix of clothing sizes for each crew member. The report may be run for the *Core Crew*, *All Posts*, *Active* and *Inactive* (Retired) groups.

Assuming you are already logged in as the Skipper, do the following to view a report.

1. On the top menu, click the down arrow next to *Skipper* then click on *Crew Shirt Size Report*.
2. A report is displayed with the results similar to below. A report may be displayed for various crew groups using the dropdown.

3. Dee Caffari	Womens - Small	Womens - Small	Womens - Size 4	
4. Dennis Conner	Mens - XXL	Mens - XXL	Mens - 48" waist	
5. Jimmy Spithill	Mens - Large			
6. Sam Davies	Womens - Medium			
7. William Bligh	Mens - Extra Large			

## Crew Position Assignment Report

Crew Manager can produce a consolidated summary of Crew Position Assignments for a calendar year as a one page report. This report counts people against positions for a season and displays a color coded matrix. It is helpful for Skippers who try to balance crew position assignments over a season, or just to show who did what over the season.

- The Skipper logs in and selects from the *Skipper* menu *Crew Position Assignment Report*
- A date dropdown appears at the top and defaults to current year. Select the date and click the blue button next to it to update the display
- A matrix is displayed on the screen with the column headings being each crew member's display name. These are approximately a 45 degree angle so that more information may fit on the display
- Each row displays the position name on the left. Positions with no assignments are not displayed.
- The matrix shows the number of times a crew member was assigned a position during the calendar year, and sums all the assignments at the bottom. Events that were canceled are not included in the totals. The position of Not Assigned is not totaled. Color code shades are displayed with a legend at the top of the matrix. This is a linear comparison of quartiles (25%, 50%, 75%, 100%) to easily see visual indicators for crew members and totals.

A report is displayed with the results similar to below.

## Skipper Send Email

Provides full featured email capability so the Skipper may compose and send messages to Crew associated with any event or the pre-defined groups selected from a drop down menu. No need to look up crew email addresses in your email program, or who is scheduled for a particular event. Skipper Email capability includes the following:

- The Skipper may email the crew associated with an event, or select people who are checked as members of the "Core Crew", "All Posts", "Retired", or "Active" Crew groups. If an Event is selected, the Skipper may exclude sending the email to Crew who are designated as "Stay Ashore" for an event
- The Skipper may address the entire group at once which allows people to "Reply to All", or to send the message individually to each group member.
- A Subject may be added, if none is entered it will default to "A Message from the [boat name] Skipper"
- The message may be formatted using an MS Word like toolbar. You may also attach images.
- A status message is sent to the Skipper admins upon completion of sending, if enabled in the Crew Manager Admin panel.

Assuming you are already logged in as the Skipper, do the following to send email.

1. Mouse over Crew Manager on the left menu and click on *Skipper Send Email*

# Skipper Directions for Crew Manager

## Skipper Send Email

To:  ☐ <-- Check to exclude Stay Ashore Crew from an event email

Send Email to Each *Individual* or *Group* (Group allows reply to all): ☐ Individual ☒ Group

Crew: BI to Newport Cruise - Mon, May 27th 9:00 AM (4 Yes & 0 Maybe + 2 Stay Ashore = 6 emails)

Crew: JYC Spring Series #3 - Tue, May 28th 5:15 PM (8 Yes & 0 Maybe + 3 Stay Ashore = 11 emails)

Crew: Deliver Newport to Pilot's Point Marina - Wed, May 29th 8:00 AM (2 Yes & 0 Maybe + 1 Stay Ashore = 3 emails)

Crew: Deliver Pilots Point to CPYC - Thu, May 30th 7:30 AM (2 Yes & 0 Maybe + 1 Stay Ashore = 3 emails)

Pop up window appears when mouse over item in list

3. To the right of the **To** group selected, you may optionally check the box to exclude **Stay Ashore** Crew from receiving a selected event email
4. Check **Individual** or **Group** to select if the message will be sent to all at once, or as individuals
5. Under **Subject:** type in the desired subject or leave blank for the default.

6. Under *Message Content*: type your desired message using the formatting buttons as desired.
7. When complete, scroll down and click the blue *Send Email* button.

A summary message is displayed on the screen showing the results of sending the email.

## Customize a Crew Manager Site

### Existing Capabilities

The Skipper is able to create, edit and delete both posts and calendar events with the default privileges granted. Comments may also be created, edited and deleted.

### Administrative Access to WordPress

In order to customize the website, additional Administrative privileges will be granted to the Skipper or a person designated by the Skipper. There is no charge for this. Additional Administrative privileges are not granted by default because someone who does not know what they are doing can "break" the boat's website. Additional privileges are required to create and edit pages, modify the menu, update sidebar widgets, change the header, change colors and overall website layout.

A separate login account requiring a different email address from the Skipper email is required to setup this access. This is to make sure that inadvertent changes are not made to the site when the Skipper is logged in.

### Technical Information

The boat website is built with WordPress using the Graphene theme and an associated child theme. WordPress is installed in a multisite configuration with each site as a subdomain. Plugins available to each site are installed on the main site and enabled over the network. This means that individual boat websites are restricted to use only those plugins installed and enabled over the network (e.g. individual users are unable to install additional plugins). This is to preclude incompatibilities and security risks. The following plugins are installed and enabled over the network for all sites:

- Akismet Anti-Spam
- All-in-One Event Calendar by Time.ly
- Classic Editor
- Crew Manager
- Import users from CSV with meta
- Tide Graph
- User Role Editor

The installed plugins provide needed website functionality, or permit a convenient method to import data (e.g. Crew members).

The Graphene theme has been tailored and extensive testing done with Crew Manager to optimize the experience across various devices (PC, Mac, iPad, iPhone, Android phone). Other

# Skipper Directions for Crew Manager

themes are not allowed because specific Crew Manager functionality is built in the modified Graphene Child theme. Thus Crew Manager may not be modified to use another theme.

## **Restoring the Default Configuration**

Should a site be "totally trashed" as a result of modifications, Crew Manager LLC has the ability to restore the default configuration. This is done without the loss of event data, posts or crew data. It will replace any theme modifications made and overwrite pages with the same name. This will be done once at no charge. There will be a charge for subsequent restorations to the default configuration.
