# Crew Directions for Crew Manager

## Summary

The team website has features crew members will use throughout the sailing season. In a nutshell, the team website provides a “Who, What, When, Where and Wear” schedule with automatic reminders. After an event, the results may be posted and crew members may submit comments, pictures and stories about the event.

- Provides a calendar of events for the boat and crew. Additional pages contain links of interest, weather and winds
- Events include boat location and time to be there and may specify “Uniform” (e.g. orange shirts). It also may include the boat registration and fee payment status for an event.
- Crew members set their availability to participate - this is displayed on the events
- The Skipper designates boat positions for available crew members and makes assignments by crew member (e.g. bring beer) - all these are displayed on the event
- Additional information may be included such as weather forecast, tides & currents, links to race documents, etc.
- Crew members receive a reminder email and optional text message 36 hours (or time as set by the Skipper) prior to events for which they are scheduled - all the event information is included
- Crew members may view a roster with contact information for all crew members. This is only visible to crew members logged in.
- The Skipper may elect to set an optional Crew Hide feature which limits the ability of the crew to see other scheduled for events and may limit the ability of the Crew to set availability. Messages will be displayed on the event Crew lists if this has been enabled.

## Quick Tips (Refer to pictures at end)

Crew Members must have an account set up by the Skipper before being able to log in. Once an account is established, the Skipper will trigger an email with a message for the Crew Member to set their password.

## What People See With Various Crew Hide Modes

The Skipper may limit Crew visibility with optional settings. The sections below provide examples on what is displayed if visibility has been limited.

### Optional Setting - Hide with Prevent Crew Setting Availability

The *Crew Availability* and *Crew Assignments* lists set to *Hide* with the default setting of *Prevent* for *Allow Hidden Crew to Set Availability* disables crew from setting their availability on any screen (e.g. the *Availability* dropdown selector and *Submit* button are not displayed). In this mode, the Skipper must obtain availability for each crew member and enter it using the *Skipper* menu options. Crew will see their own availability that was entered, and the availability of any crew that were added to the *Show Crew* group. These lists have the sample user "Crew Member" logged in.

Sample Crew List from an Event - Sam Davies & Dennis Conner in *Show Crew* group, Crew Member has no availability set. Note *Total Crew* includes people not displayed.

<b>Crew Color Codes:</b> Green crew is confirmed. Yellow crew need to verify with Skipper. Red does not crew for event. White crew position assignment not made yet, tally as <i>Maybe</i> and need to verify with Skipper.
